

The Landscape Corridor

that is

Citywest Road & Citywest Avenue Landscape.

The main roads passing through Citywest function as a spine upon which the different zones and sites hang. This spine is viewed as a natural landscape corridor which establishes and reinforces the character of Citywest.

N7 Lake and Wooded Hillside Frontage

N7 Slip Road Terraces and Quadrant of Evergreen Oak

N7 Slip Road and Evergreen Oak Trees

N7 Slip Road and Evergreen Oak Trees

N7 Bridge and Evergreen Oak Trees

Evergreen Oak (*Quercus ilex*) selected for their all year foliage and extreme hardiness when exposed as on the elevated site of the bridge.

N7 Bridge and Evergreen Oak Trees

Citywest Roundabout 1

Mixture of deciduous and coniferous woodland backdrop

Citywest Road

Mixture of deciduous and coniferous woodland backdrop and dropped stone path which is then part of the landscape and not the road.

Citywest Road

Mixture of deciduous and coniferous woodland backdrop with grass hillside

Hillside and woodland that forms a major part of the cradle that encloses, protects and hides the buildings

Citywest Road

Avenue of Hornbeam (*Carpinus betulus*) selected for their extreme hardiness and autumn colour

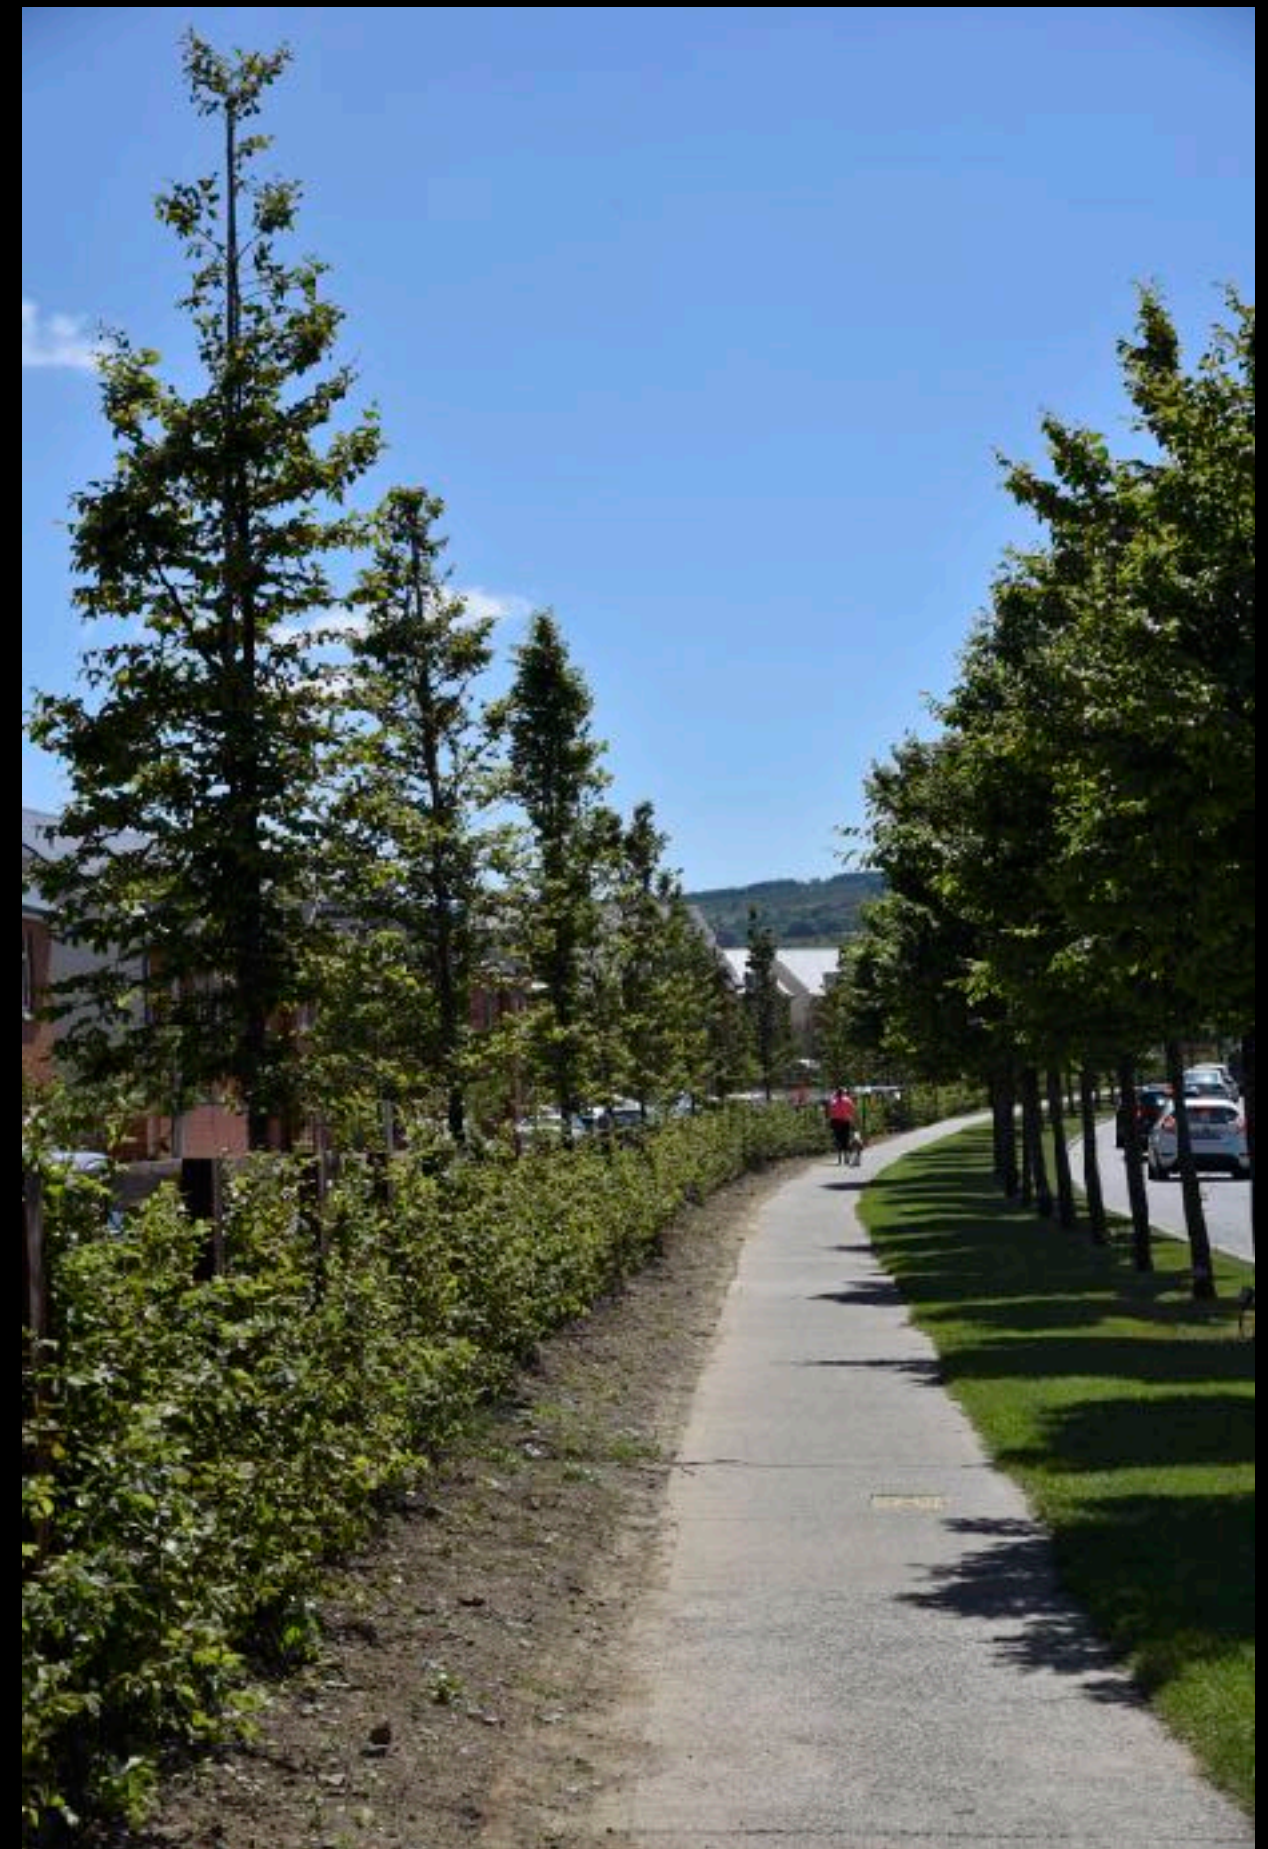

Citywest Road

Avenue of Hornbeam (*Carpinus betulus*) and woodland planting of *Betula pubescens* (Birch) for seasonal colour
