

## THE NIGHT LANDSCAPE of CITYWEST

The Landscape should be a source of visual uplift, both during the day and the night.  
For the Landscape to visually come alive and lift the dark ,wet, cold winter mornings and evenings, in contrast to the shadow casting street lights and vehicle headlights.

Citywest

The lake, wooded hillside and waterfall at Waterside, also viewed by passing traffic from the N7 carriageway

**Highlighting the 84.7 ton rock and reeds at Waterside and wooded hillside backdrop**
