

THE PLANTING of TREE STUMPS

Citywest

Tree Stumps in the landscape.

The transformation of a one month old mound into a 200 year old landscape composition.

A planted 200 year old tree stump with attendant brambles

XILINX

**A Wild Cherry tree
seeded by bird droppings
into
a planted and decaying
tree root
at
XILINX**

**Planted rocks and tree roots
dressed with
lichen and mosses.**

A sustainable, self perpetuating landscape

The root takes on a new life and a new form

To compare the power of one against the many

With size and weight comes power, with age comes character

Scots Pine and Oak stumps with attendant Rhododendron
